## **Incredible Film closes deals for SCREAM WEEK with Japan and Korea at the EFM**

Incredible Film is happy to announce that *SCREAM WEEK*, an upbeat, tongue-in-cheek Dutch horror/ slasher, has been sold to Japan (New Select) and Korea (Sejong Communications) at the European Film Market.

Six friends – 3 girls and 3 guys – have planned a wild week away at a festival. But their week of sailing and partying gets off to a mysterious start: who booked the gigantic villa for them? Is it their new, quiet housemate, who was involved in a dark episode from their past that they would rather forget?

Who cares, let's get the party started! But when one of the girls starts getting serious nightmares, sees masked figures around the villa and one of her friends develops bizarre side effects from a drug cocktail, the holiday turns into a grueling nightmare...

With 28 Spinnin' Records hit songs, including ANOTHERYOU, by Armin van Buuren ft Mr. Probz & POLICEMEN by Eva Simons ft Konshens

Incredible Film has been working over the last couple of years on becoming the worldwide sales agent for Dutch production companies. The catalogue consists a full range of family adventures, teen movies, drama, thrillers and (romantic) comedies.
